SUBJECT.

File relating to the orders about repairing the old Salutt Cutcherry at Hosakote and its Conversion to the Govt. Travellers Bungalow at Hosakote for the use of travellers

PREVIOUS REFERENCES	LATER REFERENCES.

Kundydroog Division

Bangalore District.

Estimate of the probable expence of repairing the old Taluk Kutcherri in the fort of Hoskote in view to its conversion into a Sirkar Chatram.

Reference.

Deputy Commissioner's order calling for the estimate and plan accompanying.

Report.

The roofing of the building is partly out of repair. The beams in some of the ankans are broken: the eaves built with mud on the roof have worn away: the whole building leaks when it rains. The surrounding wall has also fallen down here and there.

Specification.

1. Restoring the roof to repair making use of the old materials as well as new where necessary. The broken beams to be replaced by new ones; also new wooden props to be supplied: the eaves to be built in jungle wooden slips with burnt brick in clay and plastered and spouts put up.

2. In order to divide the building into 4 halls for the accommodation of people of all castes as exhibited in the sketch, some o-

the existing walls have to be removed or shortened and some new ones to be built of unburnt bricks and plastered with sand in turbid cowdung. both such old and new walls to be whitewashed.

The tiled pent roof in front of the large room in the building, and in the room which was the record room formerly, should be pulled down, and in their stead two rooms newly built on equality with the main building, for Bramins, Moodeliars, Lingayets, and others to lodge themselves in. The old tiles and other materials thus available should be used in building a place for the egress of smoke in the roof of the kitchen room for Bramins. The floor of the new rooms must be of the hard or durable plaster.

3. To make the building duly comfortable to people, i.e. to have a good number of rooms in it, 10 doors and 2 windows are necessary. The other rooms to be supplied with holes in the roof to admit light.

4. In front of the rooms for Mussulmen and Parishs, viz, those facing the street on the east of the premises, a new tiled verandah is to be built — the ground selected for this purpose should be

raised by filling it in with mud, and an open verandah built thereon.

5— A well is to be dug and built with stones inside the premises for the use of brahmins and Sudras. another like well to be built outside the premises in front of the tiled open verandah to be newly built, for the use of Panchamas & others. enclosure parapets to be built for both with brick in clay and plastered. wheels for raising water must be supplied. the foot wall stones must be used in the construction of these wells.

6. The whole building should be freed from dirt.

Work done according to this estimate will ensure the general utility of the premises as a hatting place.

The wooden (jungle) and other materials such as doors, windows, and bamboos and mats will have to be procured from Bangalore. Chunam to be brought from a distance of 8 miles, and bricks from a distance of 1 mile, - the rates given in the estimate are therefore entered with reference to these difficulties.

The cooking rooms for the use

of the people of the 4 different castes, are to be provided with the mortars, and drains and places for egress of smoke here & there in the roof.

Enc.

Deputy Commissioner
Bangalore District.

From R. Sykes

Bundy Droog Division
Commissioner's Office
Bangalore, 22nd July 1875.

To,

The Secretary to the Chief
Commissioner of Mysore

Sir,

With reference to your Memorial No. 6501 of the 3rd December last, calling for a report as to the suitability of the old Palace, Cutcherry at Hoskoté as a Sanitarium for all classes of Travellers, I have the honor to forward for the Chief Commissioner's perusal Copy of a letter from the Dy. Commissioner, Bangalore District No. 1041 of the 23rd Ultimo together with its enclosures.

2. It would appear from the above, that the Sanitarium can be made available for the accommodation of all classes of travellers by a re arrangement of the building, which will involve some increase in the amount of the Estimate submitted with my letter No.

of the 19th November 1874.—

3.— I beg to add that in case
shells should be required according
to the plan proposed by the Chief
Commissioner at a cost of Rupees
3065, vide letter No. 396 of the 22nd Instant
to the address of the Secretary G. H. D.,
would undoubtedly be by far the
best arrangement, and nearly 3000/-
Rupees are now available from
the accumulations of the preceding
allowance year, but if the Chief
Commissioner thinks that would not
be available, then the Lahore Cutcherry
can be converted as proposed.

I have the honor to be,
Sir,
Your most obedient Servant.

Commissioner.

No. 1041. D.G.'s Commissioner's Office
Bangalore, 23rd January 1875

To,
The Commissioner,
Bangalore Division

Sir,

With reference to your Memo No. 880 of the 12th instant and to the Secretary's docket No. 6501/6728 of 3rd Idem, calling for further information to the proposal to convert the old Palace, Cutcherry at Hoskote into a Circuit Chattrum, I have the honor to state that there is a brisk demand for Chattrum accommodation and to make the Chattrum available for the accommodation of all classes of Travellers will involve some re-arrangement of the building, and consequently some increase to the amount of Estimate submitted with my letter No 737 of 21st Oct. last year. In view to meeting these changes required, the Architect has submitted an Estimate amounting to Rupees 1099, a translation of which is herewith submitted

with a rough plan. The Estimate provides for assigning separate Accommodation to Bahamian Sudras, Mussalmen and the Coreal Classes, and so far as I am able to observe, from an inspection I made of the building, on the 20th Instant, in company with the Auditor, the proposals seem well adapted to the objects in view as well as economical.—

3.— The Amount that has accumulated since the Closing of the Christian in non Rupees 2683-3-1, which includes the Sale proceeds after 6% Christian. As this sum far exceeds any Amount that will be now needed, I would solicit that in accordance with the request urgently made to me on the part of the Christians might be re-opened at once, the Sirkar's Annuli or Building Officials to reside which is now vacant, and till Summer sets for some months being made use of Temporarily

for the purpose.—

I have &c.

Sir,

I have the honor to submit for sanction an Estimate for Rupees 199 for the construction of a stone well for use at the new Chattrum at Hoskote. The estimate for the construction of the Chattrum did not provide for this item and a well close to the Chattrum, for the use of Travellers, is very much needed.

2. The outlay may be met from the savings expected by stoppage of feeding up in this Chattrum which, deducting the cost of the construction of the Chattrum, leaves a balance of Rupees 2,95 available.

Memo.

Letter No: 720 of 4th August 1876 from the Deputy Commissioner, Bangalore District -

The Deputy Commissioner of the Bangalore District submits for sanction an estimate for Rs. 199 for the construction of a stone well at the Hoskoté new Chattram.

2. The old chattram was dismantled, and an estimate for Rs: 3075 was sanctioned in September 1875 for the construction of a new one. This amount was ordered to be met from the savings effected by the closing of the Chattram since April 1873. The annual allowance is it is Rs: 854-4-0 From april 1873 to July/76 it accumulated to Rs. 2847-8- The sale proceeds of material of the old chattram amounted to Rs: 1130-13-4. Thus the amount available for expenditure was Rs: 3978-5-4 Deducting from this the

cost of the Estimate sanctioned for the construction of the new Chattram there is a balance of Rs: 903 to the credit of the Chattram, but the Deputy Commr states that the balance amounts to Rs: 290 only. Explanation may be called for on this point.

3. The Estimate for the stone well may be returned to the Deputy Commissioner for re-submission thro' the Commissioner with the explanation on the above point.

Approved by [illegible] [illegible] Thumboo Chy

It is explained that the sum of Rs: 290 referred to above was the balance at the end of May 1876, & that the balance on hand at close of July was Rs: 310-14-10 as shown in the margin. We have no means of checking these figures. It was stated in the Dy: Commissioner's letter Eco: 1041 of 23rd Jany/75 that the accumulations since the closing of the Chattram including the sale proceeds of materials of the old building amounted to Rs: 2,683-3-1, and it is not known what were the subsequent accumulation & expenditure. From what date the expenditure of Rs: 714-8-1 was incurred is not stated.

6 The Estimate may however be sanctioned and the cost met out of the balance as proposed

Order, in Mysore

8. A Supplimental Estimate amounting to Rs. 132/- for certain additional work required to the Hoskote new Chuttram was submitted with the Commr's No. 137 of the 10th Novr 1876, and it was Sanctioned in this Office Order No. 5 of the 11th January 1879.

9. From the Bangalore Dy Commr's Roobkary No. 104 of the 5th May 1879 now received, it is said to appear that

that the Amildar and the Dist.t Surveyor represented that an additional amount was required to complete the building of the Chuttrum in question, and as ordered by the D.t Honourable, the Amildar submitted the Enclosed Supplemental Estimate in Canarese amounting to Rs.a 84-7-0. To meet this Charge, an amount of Rs.a 471-10-10, being the Surplus money of the Chuttrum including the Sums of Rs.a 132-0 and Rs.a 199 above referred to, is on hand, but no funds are available for the balance of Rs.a 373-5-2. The Amildar therefore

General No. 5769
R No. 164

With reference to your letter No 720 of 4th instant submitting for sanction the estimate for Rs: 199 for the construction of a stone wall at the Hoskote new chattram & stating that the cost may be met from the balance of Rs: 290 at the credit of the chattram

From calculations made in this office it appears that from April 1873 to July 1876 the accumulations of the annual allowance to the chattram and the sale proceeds of the materials of the old building amount to Rs 3,978-5-5-4 and that after deducting from the the amount of the Estimate for the construction of new chattram, the

Executive Engineer's Office

Bangalore 25th June 1879

From,

The Executive Engineer
Bangalore Division

To,

The Secretary to the Chief Commissioner
of Mysore, Revenue Department

Sir,

With reference to your No. 668-59 of
R. 79
28th May 1879, forwarding a revised estimate for
+herewith returned
certain additional work required for the
Government Chattram at Hoskote, I have the
honor to inform that I have inspected the
Chattram, at Hoskote, and have gone through
the estimate in detail, on the spot, with the
Amildar.

2. I append a statement shewing the items of increase and decrease in the different sub heads for which sanction is asked with the reasons for the alteration, and my opinion.

3. The principal item of increase is Rs. 434, on the sub head "Brick in clay" owing to increase of rate from 1 anna to Rs. 1-9 per cubic foot. The reasons given for this very large excess are 1st the great distance from which the bricks had to be brought, and the very high rate for firewood, both which causes should have been

foreseen

and 2nd having been made during the famine, the cost was much more than it would otherwise have been, this latter reason is I think valid enough, and I would recommend the excess being passed.

4. The estimate appears to me to have been carelessly framed in the first instance without due consideration of the rates, and in some cases of the necessary quantities.

5. The work is nearly completed, and is a good specimen of its class, the main roof in particular is very strongly and well constructed, and the whole structure shews that the Amildar, Timappa, has supervised it carefully. I would therefore beg to recommend that the Supplemental amount of Rs. 845 now applied for may be sanctioned.

6. The extra rate of 3 pie per cubic foot for "Brick in Chunam" stated in the order under reply to have been proposed by the District Surveyor, is not necessary.

To

The Secretary to the

Revenue Dept

Sir,

With reference to your
No 3760/669 of the 30th September
last, I have the honor to state
that the amount still due to
the contractors of the Hosakote
Choultries, is only on account
of the original and supplemental
estimates

Estimates already sanctioned.

Thus amounts to Rs 456-11-9 as particularized in the margin.

The sum now in deposit is Rs 335-14-4 in addition to which Rs 120-13-5 are required to be drawn from the surplus fund of Rs 199-2 to pay off the said due. There will thus be a balance of Rs 78-4-7 which will, as already pro-

-posed, be utilized (1) for fixing 4 windows in the Chathram walls at a cost of Rs 20, as it stands in need of ventilation (2) for purchasing new utensils

To Ammankutty Rs 111-0-10
To Kunhalu Nambiar " 345-10-11
456-11-9

as per accompanying Canarese.
Estimate and the Anildars
reports, from which it will
be seen that there are 18
vessels of which 7 are in need
of urgent repairs, and the
remaining 11 are utterly useless
or do not admit of repair at
all & which will be sold, and
the sale proceeds thereof es-
timated at 7 and odd Rs utili
zed towards the repairs of
the said 7 vessels, hence the
purchase of the new vessels
is absolutely necessary. No
found on account of the above
two items is required to
draw

drawn from the feeding allowance. Under the circumstances I request that the bill already submitted for Rs 199-2-, may be counter-signed and transmitted to the Comptroller for audit.
